PERSONAL PROFILE

Motivated and results-driven student currently pursuing a Bachelor of Science in Statistics and Data Science at Strathmore University. Skilled in programming, data analysis, and problem-solving, with a strong foundation in mathematics and IT. Passionate about applying data-driven approaches to solve real-world challenges, collaborating with teams, and contributing to innovation in technology and analytics.

CAREER OBJECTIVE

To utilize my acquired knowledge and experience to add value to the organization while continuing to grow my skills through practical, hands-on experience.

EDUCATIONAL BACKGROUND

Strathmore University, Nairobi, Kenya *2023 – Present*
BSc. Statistics and Data Science (Expected Graduation: 2027)

Technical Institute Fundi Maendeleo, Bukavu, DRC *2016 – 2023*
High School Certificate, State Exam — Score: 60%

PROJECTS AND EXPERIENCE

Predicting Food Insecurity in East Africa — Final-Year Project *2026*
Research Project | Climate and Economic Data

- Completed a data-driven study of food insecurity across Kenya, Uganda, Tanzania, Rwanda, and Ethiopia using annual data from 2000 to 2024.
- Examined climate and economic indicators, including rainfall, temperature, GDP per capita, inflation, poverty, and agricultural value added, in relation to the prevalence of undernourishment.
- Applied and compared Multiple Linear Regression, Decision Tree Regression, and Random Forest Regression models to predict food insecurity.

ChallengeHub — Quiz Challenge Platform (Personal Project) *August 2026 – September 2026*
Project Lead & Developer | Built with JavaScript

- Designed and built a web application that allows an organizer to create timed quiz challenges by composing sets of questions.
- Implemented a speed-based scoring system in which participants who answer correctly the fastest are awarded more points, encouraging quick and accurate responses.
- Led the project end-to-end as founder, from concept and design to implementation and testing.

Qmeet — Interest-Based Networking App (Ongoing Project) *September 2026 – Present*
Project Lead (In Development)

- Developing an application that helps people meet and connect with others who share similar interests, fostering new acquaintances and communities.
- Currently working through design and feature development; the project is ongoing and not yet completed.

Python Game Development Project *March 2024 – May 2024*

- Designed and implemented a Rock-Paper-Scissors game in Python.
- Applied data cleaning and visualization techniques within the project.
- Presented results and findings to professors and peers.

Data Analysis Coursework Projects *2023 – Present*

- Conducted data cleaning, visualization, and statistical analysis using Python, Excel, and Tableau.
- Applied probability and descriptive statistics techniques to real-world datasets.

ACHIEVEMENTS

- Awarded Strathmore University Scholarship, August 2023.
- Competed in a Mathematical Competition in Bukavu, DRC.

COMPUTER PROFICIENCY SKILLS

- Programming & Data Science: Python, C++, HTML, Data Cleaning, Data Visualization
- Software Tools: Microsoft Excel, Tableau
- Statistics & Mathematics: Probability, Descriptive Statistics, Algebra, Geometry, Trigonometry
- Languages: English (Upper Intermediate), French (Fluent), Swahili (Proficient)

EXTRACURRICULAR ACTIVITIES

- Member of the Congolese Community at Strathmore University.
- Member of Intelligence Community Service (ICS).
- Member of the International Student Association, Strathmore University.
- Former Class Representative (2021 – 2023).

INTERESTS

- Football, volunteering, fashion, coding & programming.
